NATSPEC PRODUCT PARTNER

Natspec is a not-for-profit organization that is owned by the design, build, construct and property industry through professional associations and government property groups. Natspec's major service is the comprehensive national specification system endorsed by government and professional bodies. The specification is for all building structures with specialist packages for architects, interior designers, landscape architects, structural, mechanical, hydraulic and electrical engineers and domestic owners. The foundation of the Natspec specification system is the 'worksection'. Natspec worksections are selected and customized by the specifier to produce a project specification. A Natspec branded worksection is developed by Natspec in conjunction with the manufacturer, known as a Natspec Product Partner. AFS has worked extensively with Natspec to become a product partner and to form the 'LOGICWALL In Concrete Combined' branded worksection.

Visit www.natspec.com.au and go to Branded Worksections to download LOGICWALL Branded Worksection
